Subject: Logical Termini Revision for EIS

Dear Mr. Bolinger:

The Northwest Louisiana Council of Governments (NLCOG), in cooperation with the Louisiana Department of Transportation and Development (LDOTD) are preparing an Environmental Impact Statement on the above referenced project. The logical termini previously accepted for this project are the interchange of I-49 at I-20 and the proposed interchange of I-49 with I-220. Due to the development of a NEPA-derived alternative one year into the EIS, we are requesting a change in the southern limits of the logical termini. Specifically, we request that the southern logical termini be changed from the interchange of I-49 at I-20 to the interchange of I-49 at LA 3132. With the expansion of the scope of this project, the anticipated completion date of the EIS with a Record of Decision is Winter 2014.

We appreciate your concurrence and/or comments. If you have any questions, please call Ms. Joyce Barkley-Hahn at (225) 242-4511.

Sincerely,

J. Ardoin

Noel Ardoin
Environmental Engineer Administrator
